S.D. OF N.Y.

**SUBJECT: FAILURE OF AMBASSADOR KELLY CRAFT TO ACT WITH REGARD
TO CANADIAN HOMOPHOBIC HATE SPEECH AND THREATS THAT
PLACES U.S. DEFENSE CONTRACTORS AT RISK**

Ladies and Gentlemen:

As you may be aware, Ms. Marillyn Hewson has allegedly been identified as a member of a snuff film network that employs pedophiles working within Lockheed Martin Corporation (LMC) and the US Marshals Service (USMS). This identification has been made by a Canadian resident (U.K. citizen) that appears on a dozen social media podcasts bi-weekly.

This Canadian alt right hate speech monger, known as David Charles Hawkins, has teamed up with an individual known as Jason David Goodman of New York City to distribute these allegations in a pervasive manner. For background, Mr. Goodman's media podcasts led to the closure of the Port of Charleston, South Carolina on June 14th, 2017 for a "dirty bomb hoax". It is generally understood that the Coast Guard washed its hands of any meaningful investigation of the Port closure (reported by the New York Times and CNN) the day after the incident.

It was Mr. Goodman that coordinated and supervised the submission of dirty bomb hoax warnings to the 7th District U.S. Coast Guard headquarters by inciting his live audience of 2,000 people to send tweets warning of an impending nuclear radiation catastrophe. Other calls to action (CTAs) have been issued against high-profile government officials, federal judges and defense contractor senior leadership (as in this the case with Ms. Hewson)..

It would be a mistake to underestimate the potential for harm by Mr. Goodman and Mr. Hawkins. The two continually advance a social media campaign that chips away at the reputation of companies like Lockheed (see SERCO, Boeing, etc.). This is especially troubling in the area of corporate security as this activity represents a blended attack. The "dirty bomb hoax" incident has reportedly cost the Maersk Shipping Lines nearly 4.1 million dollars in lost revenue and reputational damage.

It is a shame that the Ambassador to Canada has not done more to make reasonable inquiries into the government of Canada concerning issues related to dangerous all right homophobic hate speech mixed with apparent CTA threats.

Thousands of gullible and naïve individuals believe in these allegations. This matter is serious enough to warrant a written explanation from the Canadian government.

Warm regards,

D. G. Swengert

Why did Lockheed's dedicated security, specialized in protecting their executives and their families stand down after the murder of Jonbenet? Could they have been hacked?

99 31

As the following screen-shot exhibits indicate, the subject is fond of distributing (in a widely pervasive manner) video podcasts that follow a basic and repetitive storyline that LGBTQ elites are murdering children to distribute pedophile snuff films. Summary:

- A super class of “LGBTQ elites” have infiltrated several programs of the U.S. Department of Justice (DOJ) for the purposes of extortion and murder-for-hire of young children to sexually satisfy pedophiles.
- This super-class of elites was established by Kristine Marcy, a lesbian, traitor and alcoholic that created DOJ PRIDE (an LGBTQ organization).
- As both SERCO, INC. and the US DOJ PRIDE have corporate/government LGTBQ programs, these institutions have implicated themselves (SERCO and DOJ PRIDE) in several dozen child murders utilizing CONAIR (Joint Prisoner Alien Transport System) deployments of “SERCO SWAT teams” that “cancel the carbon-footprint of high-value targets” (murder).
- That LGBTQ elites controlled the snuff-film and on-line gambling corporation known as Starnet, Vancouver, B.C., to distribute pedophile snuff films, via the Starnet communications network, to LGBTQ elites.
- That LGBTQ elites operate “betting dead pools” to estimate the time of death of children that are filmed in real-time for the benefit of pedophile consumers of such child-snuff films (videos).

These recurring themes orbit around “LGBTQ elites” that are using government resources to covertly abduct and murder children for the entertainment of pedophiles, or as part of an extortion ring. The central controlling authority of these abductions and murders is the “LGBTQ elite” that has been pre-positioned across various U.S. government agencies, according to Hawkins’ *investigative reports*.

This type of rhetoric appears designed to inflame hatred and bigotry against LGBTQ members of the U.S. government. Such rhetoric also endangers Canadians in the LGBTQ community as well. It is highly promoted on PATREON.COM.

Examples of offensive anti-LGBTQ hate speech

Hawkins Malipod™—Serco's AI Con Air Sherman Patents—Maxar's Radio-Silenced Footprint—McVicar's Bridge of Pride™

Hawkins is using his Malipod™ (ref.) virtual patent-profiling machine to identify Serco and DOJ insiders—including Nicholas Soames (former UK MOD 1994-1997), Isham, McVicar and **LGBT+ deviants**— as ad hoc custodians of patents listed below who help to neutralize carbon footprints at HVT or mass-casualty events and silence crime scene investigators, whistleblowers or witnesses.

Hawkins believes that Serco and DOJ Pride's **'LGBT+ deviants'** have used patented Con Air expert systems to track and remove evidence of mens rea from crime sites but have always left an actus rea footprint indicating wrongful deaths from the use of one or more of the 4 millionth patent applications processed by Serco as USPTO's outsourcer for Pre-Grant Publication (PGPubs) Classification Services!

SUBJ: TRADEMARK INFRINGEMENT AND SOLICITATION OF CLASS
ACTION PLAINTIFFS IN MASS TORT SHAREHOLDER LAWSUIT
AGAINST SERCO, INC. & MOTOROLA SOLUTIONS, INC.

Ladies and Gentlemen:

1. At the outset, Lockheed Martin is hereby alerted and notified of the gross and reckless infringement of the following trademark: **C6ISR**

2. This trademark has been relied upon by individuals described below to implicate Lockheed Martin Corporation in a bizarre murder for hire scheme by allegedly cooperating with the Electronic Visualization Lab (**EVL**) of the University of Illinois to project snuff murder films on large screens for the entertainment of certain elites in the EVL “bat cave”.

3. The two include a (1) foreign national that is acting in concert with a (2) U.S. citizen to threaten the shareholders of SERCO, INC. with a mass tort lawsuit. This team is actively soliciting class-action plaintiffs for a mass tort action against SERCO, Inc. based on the failure of public safety radios on 9/11/2001 manufactured by Motorola which led to the death of 343 fire fighters.

**Did C6ISR Patented AI Switch the EVL BAT CAVE in
Chicago to Live Fire On 9/11 with David Hawkins**

Could patents related to Interactive training systems for AWACS weapons directors enable the EVL CAVE to switch from simulated scenarios to live fire scenarios on the fly? Was such technology employed on September 11? David Hawkins joins me to explore these possibilities.

Internet URL: <https://www.youtube.com/watch?v=s3Cq2NU85Bs>

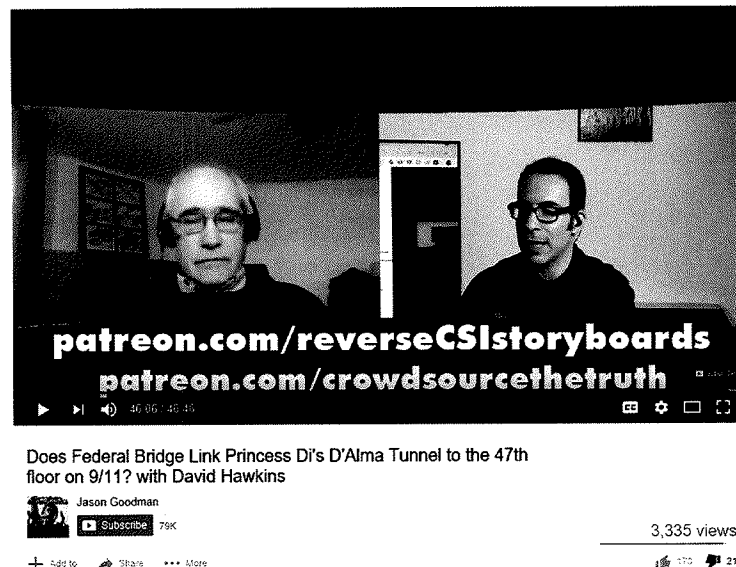

4. One of the key individuals in this scheme supervised actions that caused the closure of the Port of Charleston, South Carolina on June 14th, 2017. The financial losses to the MAERSK SHIPPING line (to include reputational damage) have been estimated at \$4,100K. It is believed a similar fate awaits SERCO, Inc. and Motorola Solutions, Inc. with a shutdown of the Federal Bridge Certification Authority and interconnectivity to the U.S. Patent and Trademark Office (USPTO) – a consistent topic of discussion for these two individuals.

5. The two individuals involved are Jason D. Goodman and his social media research sidekick David Charles Hawkins of Cloverdale, British Columbia. Hawkins has been railing against SERCO and Motorola in podcasts for over five (5) years. Now, he has joined forces with Goodman.

6. In a content contained in a YouTube and PATREON.COM video broadcast, both Hawkins and Goodman state the following:

45:26 HAWKINS: So my point is, please if you are a relative of any firefighter in New York that died, or you have an interest in such, support, or join .. you know .. Jason Goodman and myself and we will explore the possibility that those firefighters that died as a result of the negligent, reckless, willful or fraudulent use of patented devices. And then, sue the hell out of the custodian (Goodman laughs) which is SERCO and its shareholders.

45:54: GOODMAN: And of course, we're gonna do that, we're gonna do that anyway David. But, we certainly will be able to sustain it and hope that people who enjoy the show and want that justice to be served will sponsor the channel.

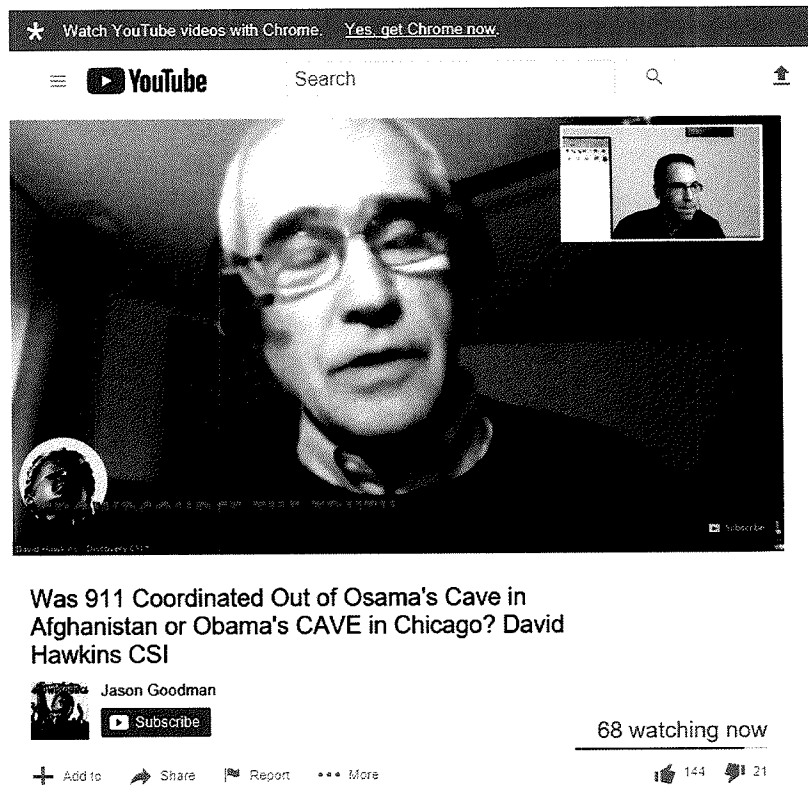

Streamed live on Jan 25, 2019

David explores the technological signatures of two of the most controversial crimes in history

Internet URL: <https://www.youtube.com/watch?v=CQR-979bhCU>

7. In video content spread in a pervasive manner on this date, Mr. Hawkins has now accused Motorola and the University of Illinois of facilitating the use of fiber optics to distribute snuff films. These bizarre theories may seem harmless to corporate officials; however, these identical methods were used to cause the closure of the Port of Charleston.

Streamed live 2 hours ago
 Become a Sponsor of Crowdsourcing the Truth and enjoy exclusive content Only ON Patreon

Internet URL: <https://www.youtube.com/watch?v=YMMZ3vHdhuU>

8. Both Hawkins and Goodman consistently allege that the Federal Bridge Certification Authority (F.B.C.A.) is used to coordinate the distribution of these snuff films. Both contend that the F.B.C.A. linkage to the State of Illinois demonstrates that both Motorola and Boeing Corporation have worked to establish a fiber optic real-time snuff film distribution network.

9. One needs to merely look at the PATREON.COM page of Mr. David “Sherlock” Hawkins to see what plans this pair has for SERCO.

With Patreon funding, Hawkins and Goodman can help communities injured by such events to develop lawsuits in the "Court of Public Opinion" to recover damages from Serco investors who met on the 47th floor of WTC#1 on 9/11 and apparently rewarded Con Air SWAT teams with carbon credits for spot fixing body counts and destruction in what Dr. Thomas Barnett, former Senior Strategic Researcher and Professor in the Warfare Analysis & Research Department, Center for Naval Warfare Studies, U.S. Naval War College, Newport, Rhode Island, described as the *"first live-broadcast, mass snuff film in human history."*

Here is what Jason Goodman
<https://www.youtube.com/channel/UC8Cl9QaRtuW9CNjP7pP4BBQ> *said about David's efforts "David Hawkins' brilliantly uncanny approach to crime scene investigation utilizes deductive reasoning and focuses on unique technological signatures. By identifying patents that describe in detail the technical distinctions of any particular phenomenon, David is able to draw conclusion and solve mysteries like no other."*

Internet URL: <https://www.patreon.com/reverseCSIstoryboards>

10. For a more complete understanding of the dangers faced by any institution presently in the sites of Hawkins/Goodman, the corporate risk committee may wish to view the most recent filings in a slander, defamation and libel lawsuit brought against Mr. Goodman. See the U.S. District Court for the Eastern District of Virginia - (Richmond), #: 3:17-cv-00601-MHL, District Judge M. Hannah Lauck.

11. Relevant parties should be cautioned that Mr. Goodman is a close associate of Larry Klayman, esq. who represents other Goodman associates – such as Jerome Corsi and Laura Loomer. These ingredients could hypothetically spell out a multi-million-dollar reputational damage campaign planned against SERCO/Motorola/Lockheed, possible similar to the Port of Charleston debacle. Prudence should be Lockheed's guide and an appropriate investigation should be undertaken. Motorola and SERCO may wish to also consider these issues.

Kind regards,

D. G. Sweigert
